

February 00, 2001

Dear Colleague:

A Joint NASA/DOE Radiation Investigators' Workshop, will be held on June 27-30, 2001, at the Crystal City Gateway Marriott, near Washington, D.C. This joint Workshop will comprise the U.S. Department of Energy Low Dose Radiation Research Program Workshop II and the 12th Annual Space Radiation Health Investigators' Workshop.

The purpose of this workshop is to provide an opportunity for current investigators funded by the DOE Low Dose Radiation Research Program, and for researchers active in the NASA Space Radiation Health Program, to meet and share the results of their work. We are hopeful that this combined venue will allow all participants to explore new directions of research that may benefit both programs.

Participation in this Workshop is by invitation only. The workshop is intended mainly for investigators currently supported by either of the two Radiation Research Programs named above. Other scientists with a legitimate interest in space or low dose radiation research are also cordially welcomed, but can only be accommodated on a space available basis. If any of your colleagues wish to attend, they should send their request directly to me (noelle.metting@science.doe.gov).

Participants will be expected to submit an abstract and an informal poster. The workshop sessions will consist of a guest speaker, a topical overview, and a panel discussion by contributing authors of posters. Ample time will be provided for poster viewing and discussion.

The registration form can be found at the following website: _____
We look forward to hearing from you.

Yours sincerely,

Noelle Metting
Program Committee Chair

-10th Annual Workshop-

5 International Travel Invitees

1. J. Kiefer
2. G. Kraft
3. L. Sabatier
4. K. Fujitaka
5. V. Petrov
6. ?M. Kadhim (may be already in country)

12 US (incl. Students) Travel Invitees

1. G. Reitz (in country support only)
2. M. Fry
3. S. Curtis
4. Eugene Benton
5. Paul Todd
6. Jack Little (Distinguished speaker, Tracy Yang Lecture)

Students (tbd)

FYI - 9th Annual Workshop
included:

Special Invitee letters (no funding)

- 1) Jack Little
- 2) Furusawa
- 3) Yasuda
- 4)

Intl. Dachev
U.S. Peterson
5 students
